

Flight Safety 101

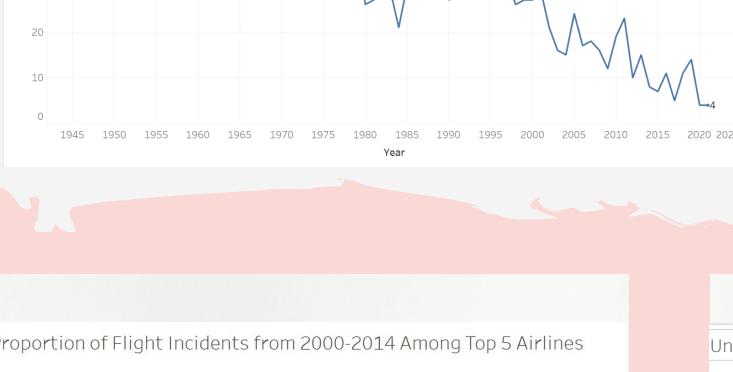

Rightfully so, there can be, and is, fear around flying on an airplane. However, at United Airlines, we wanted to share how our services are safe for you ... our customers.

UNITED MILEAGE STAYS HIGH

The total passenger miles flown with United Airlines have increased by 16% over the span of five years, showing our customer loyalty and faith in our flying.

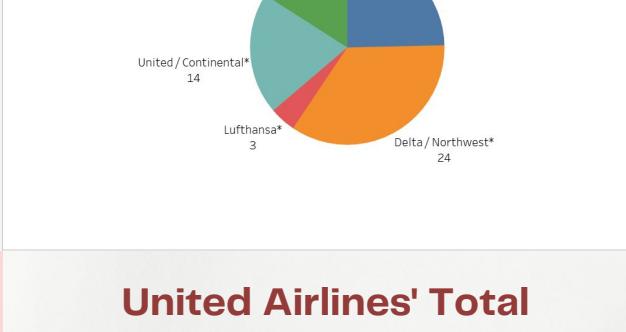

Total Passenger Flight Accidents from 1946 to 2021

FLIGHT ACCIDENTS GET RARER IN THE U.S.

Total flight accidents from 1946 to 2021 experienced a 92% decrease, heavily minimizing the dangers experienced.

United Airlines' Total Incidents Stayed Low in Comparison to Competition

United Airlines Safety Events from 2000-2014

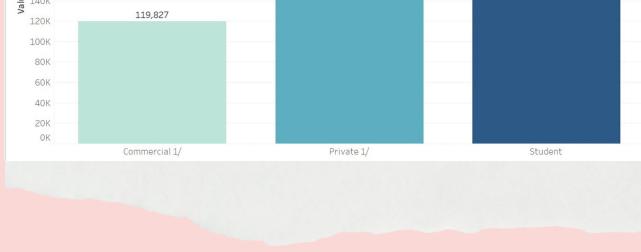

While fatalities by passenger were high, United experienced a small amount of incidents and fatalities over the span of 14 years.

United Airlines' Safety Record

According to airlineratings.com, United Airlines has a safety rating of 7 out of 7, as of February 2022, which indicates a clean (zero) record for both fatal accidents and incidents.

PILOT TRAINING

United States pilots are required to have active pilot certificates to operate any airplane.

United's Pilot Training Program

United is actively trying to address this shown age group gap after 40-50 years old with their pilot training program that launched in January 2022, opening the door for more certified pilots!
